Hello

I hope you're surviving the heat and all is well in San Pedro.

Although the Lovecraft Film Festival won't be applying for sponsorship with PBIDF in 2016 (five year limit), we would like to know if we could still get support for our festival on April 29, 30, and May 1:

- marketing (on your newsletter, having our banners out there, etc.)
- space: we are thinking of moving our author readings, panel discussions and other lecture style events out of the Warner Grand. Does PBID have or know of conference space we can check for availability?

If there are other things you think we should pursue for our 2016 fest, please let me know. I am cc'ing Cody on this email, one of the other directors.

Thanks, cheers!

Aaron
